

ANCCA NCCP Taskforce eMtg.22.1 (Jan6) – Minutes of Meeting (Draft 1)

Meeting Time (60 minutes)	From	To
<b>Nepal</b>	12:45	13:45
<b>India</b>	12:30	13:30
<b>Bhutan, Bangladesh</b>	13:00	14:00
<b>Indonesia, Vietnam</b>	14:00	15:00
<b>Brunei, China, Malaysia, Philippines, Singapore</b>	15:00	16:00
<b>Japan, Korea</b>	16:00	17:00

**Participants (around participants from 12 countries & organizations)**

1.. Bhutan (BT): Mr. Kinley Tshering Bsc / 2. Brunei (BN): Dr. Babu Sukumaran, Dr. Ong Sok King, Dr. Noraslinah Ramlee / 3. China (CN) : Dr. Min Dai, Dr. Wang Shao Ming / 4. Indonesia (ID): Dr. Evlina Suzanna, Dr. Syifa Afiyah, Dr. Julyanti Agustina, Dr. Salifah Safira, / 5. Japan (JP) : Dr. Tomohiro Matsuda, Dr. Manami Inoue, Dr. Sarah Abe, Laureline Gatellier, Ms. Akane Taminaga / 6. Korea (KR) : Mr. Jong Soo Han / 7. Laos (LA): Dr Phetsamone, Dr Champadeng / 8. Malaysia (MY) : Dr. Siti, Dr. Suhana Yusak, Dr. Nor Saleha binti Ibrahim Tamin, / 9. Nepal (NP) : Dr. Kishore Pradhananga / 10. Philippines (PH): Dr. Clarito U. Cairo / 11. Singapore (SG): Prof William, Dr. Muhammad Taufiq Bin Jaafar / 12. Sri Lanka (LK) : Dr. Harindra

Note : → action item

**A. REGULAR eMeeting PART A – Preparing Feb 10<sup>th</sup> quarterly meeting on Feb 10<sup>th</sup> (Thu)**

**1. Opening and Preparation to next ANCCA regular quarterly e-Mtg**

Tomohiro Matsuda as representative of ANCCA Secretariat, gave best wishes for 2022 to all ANCCA members. He then shared a proposed plan prepared by the secretariat team (SG/JP) to accelerate activities in ANCCA, with a list of potential projects for 2022, and the plan to put in place several projects based on the 7 sub-committees suggested in the list below (*list updated post-meeting based on comments from attending members*).

Subcommittee	Suggested Lead(s)	Suggested Members	Suggested secretariat support
Cancer policy and control (post mtg: 3 subcommittees) 1. Strategic NCCP in ANCCA 2. NCCP ongoing project 3. Asian Code ongoing project	1. To be decided 2. JP (Dr Matsuda) 3. BN / JP	1. BT, ID, IN, JP, VN, etc. 2. KR, LA, MY, SG, etc. 3. KR, LA, MY, SG, etc.	1. JP / ? 2. JP / ? 3. JP / ?
Registries	? IN ( <i>not yet confirmed</i> )	CN, ID, JP, KR TH, etc.	? IN ( <i>not yet confirmed</i> )
Education and training	KR	?	KR
Research and Clinical trials	JP (ATLAS?)	?	SG / JP
Publicity, Philanthropy and Partnerships	SG, ID	?	SG
COVID-19 and future pandemics	?	?	JP / ?
Tobacco free zone	?	?	JP / SG

BT=Bhutan  
BN= Brunei  
CN=China  
IN=India,  
ID = Indonesia  
JP=Japan  
LA=Laos  
KR= Korea  
MY= Malaysia  
SG=Singapore  
TH=Thailand  
VN=Vietnam

The suggested plan includes the nomination of people to lead; the frequency of new small meetings frequency will depend on the topic.

Comment from members:

- Sokking stressed that, as these plans cover a huge area, it will be important to obtain the inputs and support from all members (*post meeting: concern addressed*)
- Prof William stressed that ANCCA collaboration will bring more impact in the region including policies in Asia

- Dr Phetsamone in Lao shared that the situation there seems to be very different, with a limited number of specialists currently involved in cancer control in their country.
- Details of subcommittees (kindly summarized by KR) (these details will be included in the SurveyMonkey

Subcommittees	Details
Cancer Policy and Control	NCCP meeting, ACAC Manuscript Meeting and etc
Registries	Cancer Registry Training opportunity by NCC India's (?) as the Regional Hub for Cancer Registration (IARC GICR)
Education and Training	2022 UICC Technical Fellowship Program and etc
Research and Clinical Trials	'Asian clinical Trials network for cAncers' and etc
Publicity, Philanthropy and Partnerships	ANCCA Website, MoUs with APOCP, C/CAN and etc
COVID-19 and Future Pandemics	COVID-19 Manuscript, committee and etc
Tobacco Free Zone	(any suggestion needed?)

### Actions

- ➔ Secretariat to send "ANCCA Subcommittee Survey 2022" by Jan. 19 to all members
- ➔ By end of Jan, **each member** should fill the SurveyMonkey that will be sent to each member
- ➔ By **Feb. 10, at the Regular Quarterly e-Meeting (2<sup>nd</sup> Thu every 3 months)**, Secretariat to prepare and present the complete table
- ➔ By end of March, each leader to report and how to manage
- ➔
- ➔ (by Jan. 31) All members and collaborators to share their logo.

## B. NCCP Monthly eMeeting PART B – Monthly meeting, next meeting will be on Feb. 3<sup>rd</sup> (Thu)

### 1. NCCP Tomohiro Matsuda

Tomohiro Matsuda shared the latest update of the project including mission information (see table below). He presented the relationship with other studies e.g. ACAC.

### Analysis of the survey results

country	Has a cancer control plan been developed so far?	Name of cancer control measures	Is it cancer-specific?	Comprehensive.	First year cancer control measures were implemented	Is it currently being implemented?	Latest period
Laos							
Malaysia	Yes	National Strategic Plan for Cancer Control Programme (2021-2025)	Cancer		2008	Yes	2021-2025
Mongolia	Yes	National Cancer Control Plan (2007-2017)	Cancer	Comprehensive	2007	No	
Myanmar	Yes	Myanmar National Comprehensive Cancer Control Plan (2017-2021)	Cancer	Comprehensive		No	
Nepal	No					No	
Pakistan	Yes	Non-communicable disease (NCD) plan	NCD		2000	No	
Philippines	Yes	National Integrated Cancer Control Strategic Plan (NICCSP) 2021-2030	Cancer	Comprehensive	1990	Yes	2021-2030
Singapore	Yes					No	
Sri Lanka							
Thailand	Yes	National Cancer Control Program	Cancer	Comprehensive	1997	Yes	2022-2026
Vietnam	Yes	National Cancer Control Plan	Cancer	Comprehensive	2008	Yes	2015-2025

Plans for 2022 were presented as follows:

- As with Asian Codes project, proposal of drafting the first paper of NCCP project (elaborated version of the MOORE paper)
- Research by international organizations is inadequate, and a working group led by the Council of National Cancer Centers of Asia, which is close to the ministries of health in each country, is an ideal

- Even in countries that "have cancer control measures," the number of countries in Asia that have developed and implemented comprehensive cancer control measures as considered in Europe and the United States is limited, and many of these countries seem to have inappropriate priorities.
  - o Interview of people in charge in each country to understand the situation for the next fiscal year, including whether budgeting is being done and whether the budgeted amount is reaching the end of the line.
- By creating a conceptual diagram, grasp the cancer control measures in each country.
- Also respecting the support of Nepal, Bangladesh, Bhutan, Pakistan and other countries by the Tata Memorial Hospital in India.
- Noting the similarities in cancer incidence in Asia, the Asian Code Against Cancer is a fully backed plan and collaboration with the international organization IARC.

**Actions**

- ➔ By next NCCP meeting (Feb. 3), JP to start interview of persons in charge in relevant countries.
- ➔ By next NCCP meeting (Feb. 3), members who have not yet updated the information in the above list, please share the update (Laos, Nepal, Singapore, Sri Lanka)

**2. Asian Code Against Cancer**

- a. Dr Clarito Cairo and Dr Min Dai shared a snapshots from the Philippines and China. The presentations showed big differences among ANCCA member countries
  - b. ACAC Core members (Sarah and Sokking) provided updates on the draft manuscript and survey discussion obtained from Satellite 2 and at this NCCP meeting
- Actions
- ➔ At next meeting NCCP meeting: Laos and Nepal to share snapshot of their country (similar to China and the Philippines)

**3. Next monthly official NCCP e-mtg is planned on the 1<sup>st</sup> Thursday of Feb (3-Feb-2022), same time**

**4. Next quarterly official regular e-mtg is planned on the 2<sup>nd</sup> Thursday of Feb (10-Feb-2022), same time**

**Please kindly book your time for upcoming meetings  
Thank you all for the great collaboration!**
